

You became a vet because you love animals and keeping pets healthy is your passion... We know you wouldn't forsake homeless dogs and cats so why is the PVMA doing just that by standing in the way of legislation that would outlaw carbon monoxide euthanasia once and for all in Pennsylvania?

The gas chamber is a cruel and inhumane way to euthanize animals. 20 or more states have already outlawed its barbaric use. It is actually less expensive and safer for both animals and humans to utilize sodium pentobarbital.

Lobbying by the PVMA has prevented at least one bill banning PA gas chambers from passing in the last legislative session.

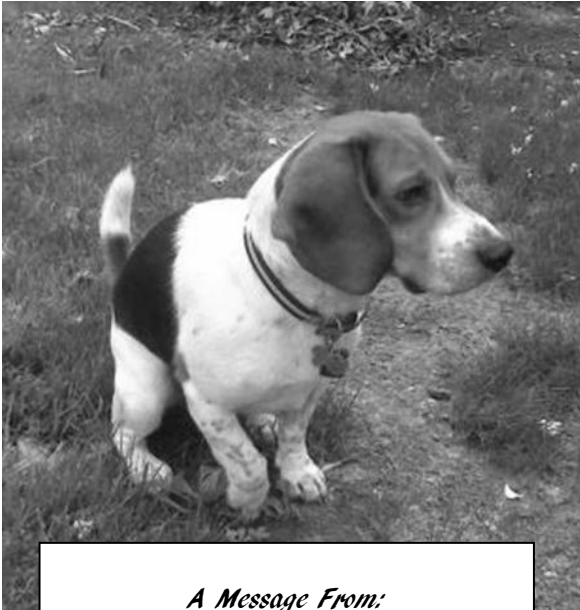

**Will you allow your professional organization to delay its passage yet again by blocking PA Senate Bill 969?**

**WHAT YOU CAN DO**

1. Contact PVMA president Mark Fox (mfox@pavma.org) and executive director Charlene Wandzilak (cwandzilak@pvma.org) at 717.220.1437 and **INSIST** they stop blocking **PA Senate Bill 969**.

2. Contact your state representative and senator and let them know you **SUPPORT Senate Bill 969** to abolish PA's companion animal gas chambers.

Thanks for all you do for the animals.
